

## RISE AND FALL OF GREEN CITY

### CHAPTER 13– ANOTHER ATTEMPT BY YOUTH

Some of the youth who participated with the Rise and Fall of Green City with their parents, discussed the attributes of the famed City with their friends. The result was that the friends of Kimball Verigin, decided to give it a try and went up several times as these action photos demonstrate.

Reports were as follows:

1. Signs of previous campsite activities remained in place.
2. The infamous prefabricated toilet was still erect although the electrical connections had been tampered with by un-licensed Electricians and the red wiring was not connected to the Red Current Bush which perhaps was never corrected from its last Users and the ground wire was just lying there “exposed”.
3. Trout fishing continued to be plentiful but the touted Coho Salmon had been apparently “fished out”, a victim of improper Fish Management from a defunct Green City Treasury.

Here are some of the photographs that were “subpoenaed” from one of the participating Youth.

They seem to have claimed the Green City Campground

The original table and Green City Sign remnants are still evident. Kimball Verigin may even be the incumbent Mare?
